Show HN: Quickly build CSS on-the-fly in your terminal. - yellowapple I have been working on a tool for a few months now, and finally got it ready for users to get in contact with it. Check it out at and This is a live preview, in production there will be a server that stores the styles, and won't cache the entire text (keeping it responsive, and so on). ===== apinstein Cool, seems like something I'd use for bootstrap examples at work. I'm not a fan of CSS as it stands though -- it's the first "visual" language I've ever tried and really hate. ----- cmccabe Does it generate valid CSS for the browser when viewed in a web browser? ~~~ yellowapple Valid? No. Every browser I tested shows errors in the rendered HTML; though I only tested in Firefox 4/Opera 11; it's a bit more lenient in Chrome (in part
